Industry Whitepaper: The E-Learning Astrology Boom

> Risk Assessment for Consumers

The digital education sector has seen a spike in **astrology course scams online**. This whitepaper provides a risk assessment for consumers asking, **are expensive astro courses worth it**? By aggregating **lunar astro course reviews and complaints**, we outline the operational model of a typical **lunar astro deceptive course**. Key risk factors include **hidden costs in online astrology courses** and the deceptive marketing of **fake astrology certification**. Stakeholders must prioritize transparency to restore trust in astrological education.
